Name: G2M insight for Cab Investment firm
Report date: Mar 23rd, 2024
Internship Batch: LUSUM31
Version: 1.0
Data intake by: Data Scientist Intern
Data intake reviewer:
Data storage location:

City details:

Total number of observations	21
Total number of files	
Total number of features	3
Base format of the file	.csv
Size of the data	759 Bytes

Customer_ID details:

Total number of observations	49172
Total number of files	
Total number of features	4
Base format of the file	.csv
Size of the data	1 MB

Transaction_ID details:

Total number of observations	440099
Total number of files	
Total number of features	3
Base format of the file	.csv
Size of the data	8.58 MB

Cab_Data details:

Total number of observations	359393
Total number of files	
Total number of features	7
Base format of the file	.csv
Size of the data	20.1MB

Proposed Approach:
- Convert 'Population' and 'Users' in City to int type.

- Merge tables based on Transaction ID and Customer ID.
